

Mistrot's

The Great Expose of Hat Beauty takes place Wednesday and Thursday of this week. Two weeks past our great corps of experts have been diligently preparing magnificent Millinery expressly for this review. Particularly noticeable will be our own milliners' copies of hats by famous French experts. Come and see with what skill and deftness these have been created. What woman would not wear one of these in preference to the real imported model, especially when considering "one-fifth the model's price."

Carpets.

For some time people believed that this Carpet stock would be closed out and the department discontinued. We've remedied that impression—filled the department with more goods and furnished, probably, bigger bargains than we would under other circumstances.

The Millinery Show will be the largest since the establishment of the Big Store. The grandest by far, because this season's special effort will be in goods of pre-eminently high class. Exclusive hats will not be duplicated under any circumstances.
